

Nightscaping® Powercenter™ Transformers

Lifetime Warranty, UL 1838 Approved

Nightscaping™ The Safe System

Commercial Fixtures

The Original 12-volt Outdoor Lighting Company

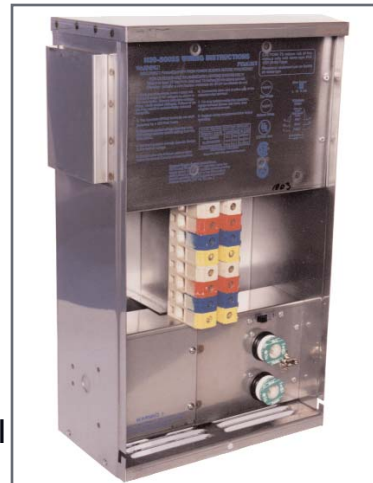

Nightscaping® Powercenters™ offer you the absolute latest in transformer technology. Use our SS and H3O series Powercenters™ to guarantee effective, efficient and safe transformer operation for the life of your lighting systems.

Nightscaping® Powercenters™ elevate the safety of your lighting designs with features like secondary side, tamper-proof fustat protection, stainless steel construction, rain tight design, built-in shock preventions, and more.

Nightscaping's® manufactures transformers ranging from 100 to 1000 watts, and a series of multi-tap H30 units for more complex designs. This broad selection allows you to tackle outdoor lighting projects of any size, in both commercial and residential settings.

Multiple Sizes:
T-100-SS, T-150-SS, T-250-SS,
T-500-SS, T-1000-SS

H30 Multiple Sizes:
H30-250-SS, H30-500-SS,
H30-1000-SS

The Powercenter's™ modular design enables you to select your control option of choice. This flexibility means you can deliver personalized, safe operating, energy efficient lighting systems designed to meet the specific needs of your individual clients and their landscapes.

All Nightscaping® Powercenters™ are listed UL 1838 and backed by a LIFETIME guarantee. Try one on your next lighting project to discover unlimited freedom and function for your outdoor lighting designs.

Ace Connector

Eliminate maintenance headaches, lost time and costly call backs caused by faulty connections with Nightscaping's® Ace Connector. The Ace is a weatherproof, solid brass, direct burial connector and conductor. It minimizes friction, corrosion, is easy to install and provides a permanent connection you can depend on.

DB-1525, DB-1538

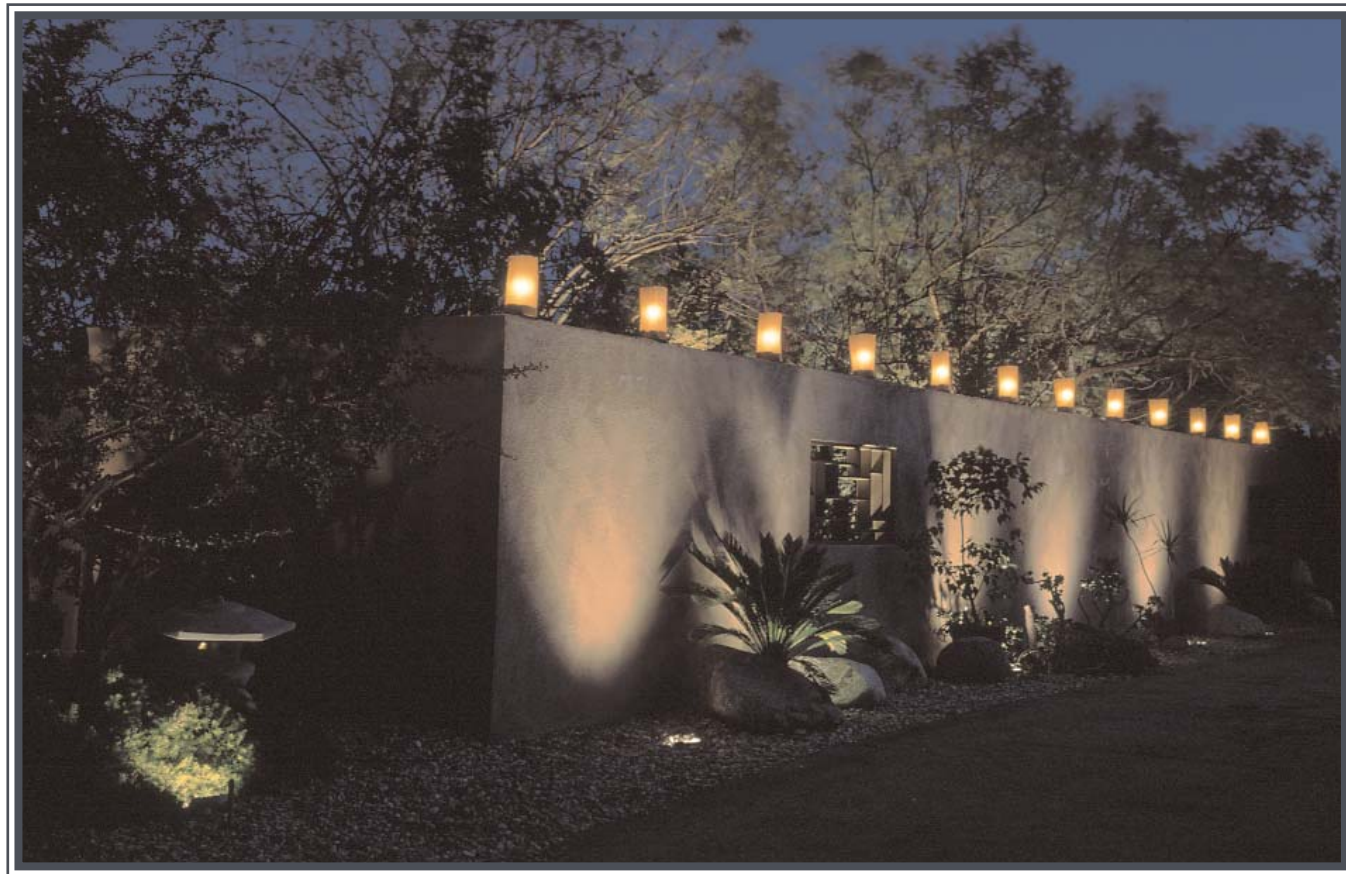

The Ace Connector is available in two different sizes to accommodate both large and small gauges of cable.

NIGHTSCAPING®: FIRST IMPRESSIONS ARE LASTING

No landscape is complete without outdoor lighting. This is your opportunity to simultaneously enhance the beauty, safety, security and value of your property with professionally engineered, warranty protected Nightscaping® brand landscape lighting.

Nightscaping® brand outdoor lighting will allow you to...

- Increase the safety, security, and value of your property.
- Considerably boost the evening beauty and visual appeal of your landscape.
- Continue outdoor activities long after night falls.

Vermeerliter Fixtures BM-4551, BM-4552, BM-4553, BM-4554

Graze buildings, accent tall trees or highlight signs with the ground-mounted, brass Vermeer. It's water-tight construction makes the Vermeer suitable for fountain and water feature lighting as well. Designed for use with an MR-16 lamp, this fixture allows you to uplight a distance of 40-50 feet. Featuring a standard lifetime warranty, the Nightscaping® brand Vermeer is a fixture you can depend on.

Nightscaping® The Safe System

Magnaliter GU-1265

Use the Nightscaping® Magnaliter as a soft low level accent light or as bright upright for large structure and trees depending on the bi-pin lamp you specify. The standard, hammered aluminum reflector shield allows you to achieve optimum light output with minimal distortions. Try the Magnaliter for sign and commercial applications wherever general wide spread light, of either low or high concentration, is needed.

This is why Nightscaping® is the Leader

in 12-volt Outdoor Lighting Systems

a catalog - they are personally trained by us in the capabilities, applications and design possibilities of our equipment.

WE'RE PROUD OF OUR STANDARDS

Everything about Nightscaping 12-volt outdoor lighting systems represents the best in our industry. Our people, our selection, our quality, and how we stand behind our products. Even our customers are exceptional.

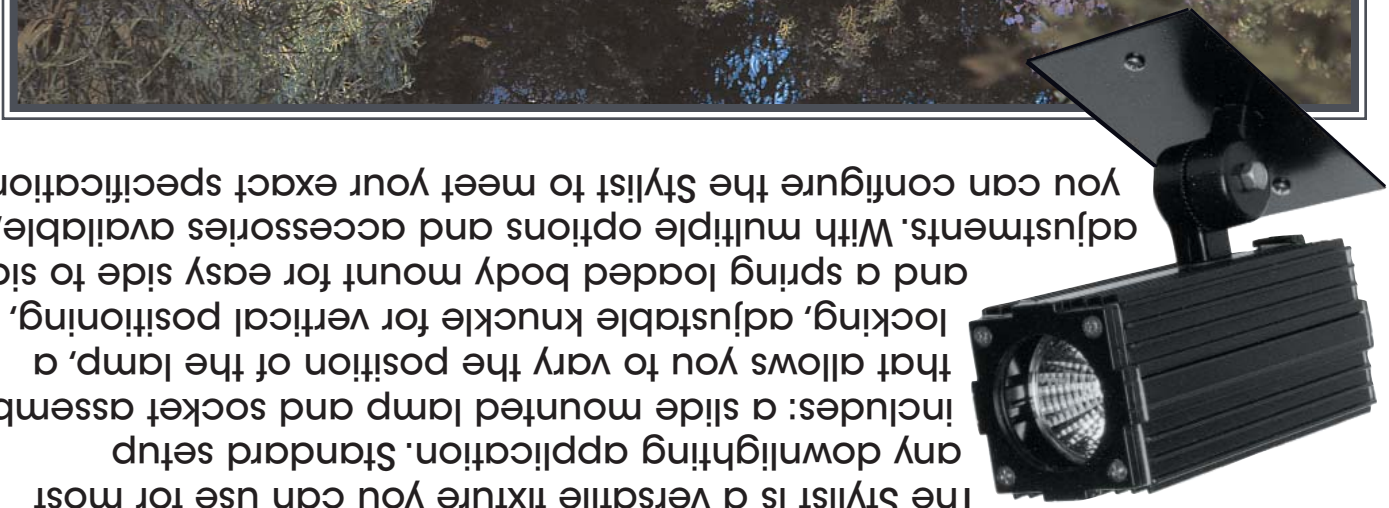

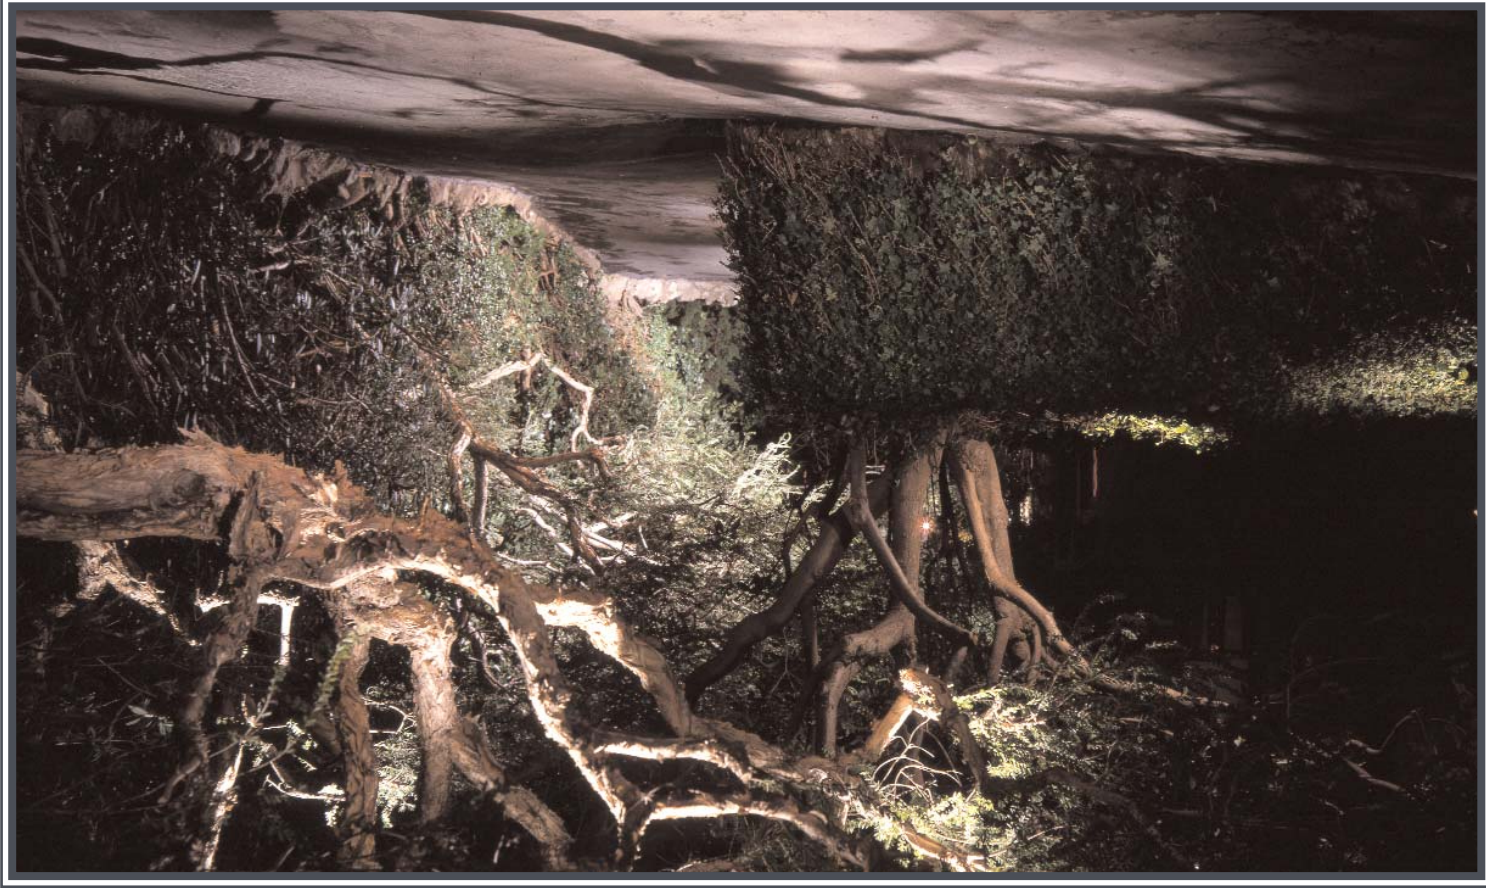

All this works together to produce the best value possible in outdoor lighting systems. When it's time for you to select a system for your home or office, be sure you select the best - Nightscaping.

WE'RE PROUD OF OUR PEOPLE

The people of Nightscaping are the most important element of a 40-year commitment to the highest values in outdoor illumination. We're committed to quality in materials and

workmanship, of course. But we're equally committed to personal contact, to responsiveness to the needs of our customers. This attitude began with our founder and president, Bill Locklin, and is a vital part of our continuing success.

This personal touch includes the contractors who sell and serve our equipment. Most are graduates of our Nightscaping University. So the people who design and install Nightscaping systems don't just read numbers from

The Stylist is a versatile fixture you can use for most any downlighting application. Standard setup includes: a slide mounted lamp and socket assembly that allows you to vary the position of the lamp, a locking, adjustable knuckle for vertical positioning, and a spring loaded body mount for easy side to side adjustments. With multiple options and accessories available, you can configure the Stylist to meet your exact specifications.

Stylist AW-0603

Throw light virtually to infinity with your choice of 90, 180, or 360 degree beam patterns when you specify the Infinitylitter. With its cast aluminum top and built in shield that extends lamp life and maximizes light output, the Infinitylitter offers you a durable and attractive lighting solution for multiple landscape applications.

Infinitylitter AD-1309

O'keeffeliter BM-2961BR

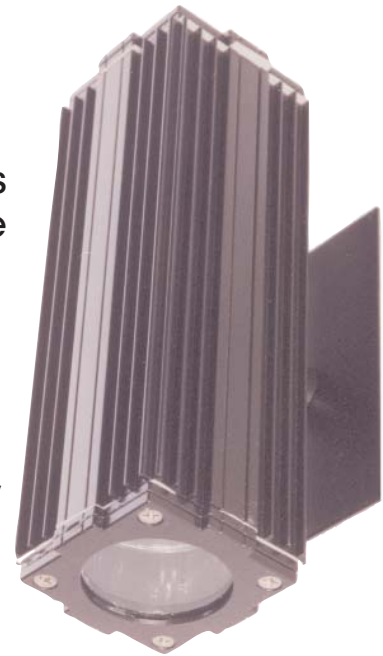

Guarantee quality and function when you specify the solid brass O'keeffeliter. Backed by a lifetime warranty, this specification-grade fixture is ideally suited for the commercial environment or high-end residential project. The ribbed construction allows for heat dissipation of all MR-16 lamps, and maximizes rated lamp life and constant color rendition.

Escort AD-0603

Lend visual interest to any night scene with the Nightscaping® brand Escort. Designed to be suspended from tree limbs, eaves or garden structures, this versatile fixture creates stunning moonlighting effects and simultaneously boosts property safety and security. Several mounting accessories are available so that you can modify the Escort to meet your exact installation needs.

El Camino EL-3000

Have Nightscaping® custom design an El Camino for your special projects. The El Camino, when installed to exact specifications, stands over 13 feet tall and based on your specifications can have either line voltage light sources or low voltage light sources factory installed.

The solid cast aluminum bell is over 18" in diameter at its widest point and can be custom cast with the owner's name, initials, estate name or any other message desired. Try using it as an entry marker or light source for large commercial applications.

La Paloma Liter AP-3540

Use the La Paloma Liter anywhere a functional bollard type pathlight is needed. The La Paloma Liter provides safety and traverse lighting to steps, walkways, decks and docks. This is the perfect fixture for large community spaces, parks, public walking trails and recreational areas. Available in multiple finishes and backed by a 10 year guarantee the La Paloma Liter is sure to extend the useable hours of the landscape and add evening beauty to any outdoor environment.
